

Spanish 1 — A Days

Homework Log

Unit 1

This log breaks up the grammar and vocabulary homework on a daily basis. The dates assigned are the days when homework *should be done* – not when it is due. Remember that although we are on a block schedule here at Casa, that is not the best way to learn a foreign language. The best way (besides total immersion) is to study a little bit every day.

I recommend that when completing homework, you have all your resources out and reference your study guide and vocabulary list frequently. You should be spending 20-30 minutes on your Spanish every day. If a packet page only takes a few minutes to complete, you should then use the rest of that time to review vocabulary, notes and grammatical concepts from previous lessons. You can find additional practice at classzone.com Avancemos 1.
