

Spanish 1 — A Days

Homework Log

Unit 4

This log breaks up the grammar and vocabulary homework on a daily basis. The dates assigned are the days when homework *should be done* – not when it is due. Remember that although we are on a block schedule here at Casa, that is not the best way to learn a foreign language. The best way (besides total immersion) is to study a little bit every day.

I recommend that when completing homework, you have all your resources out and reference your study guide and vocabulary list frequently. You should be spending 20-30 minutes on your Spanish every day. If a packet page only takes a few minutes to complete, you should then use the rest of that time to review vocabulary, notes and grammatical concepts from previous lessons. You can find additional practice at classzone.com, *Avancemos 1*.
